

Weave Your Web with

Spider
Learning, Inc.

A successful Web of Digital Resources weaves together instructional tools and quality content to ensure equitable access for students and staff. Ask yourself the following questions to determine how to strengthen your foundation and develop a plan to meet your curricular needs.

Phase I

Phase II

Phase III

What resources will you use to weave your web?

How does your organization compare to others?

How can you transform weaknesses into strengths?

What are the goals of your program?

Do you need to design new Scope and Sequence documents?

How will you ensure that your documents are aligned to your instructional objectives?

Is your staff authoring the content and/or curating the resources?

How will the development be executed and who is responsible for quality control?

Who is managing the benchmarks and progress?

Plan and Implement

Tracking and Management

What is the status of your current program?

How are you measuring the success of your current program?

What challenges does your organization face?

What will the curriculum look like in each subject area?

What are the lesson components to be created and/or curated?

How is the content being delivered?

Have you established development standards and guidelines?

Do you have a central location for your development standards and guidelines?

How are you tracking day-to-day development and validating the content?

Who will be responsible for maintenance and support?

How will you measure the achievement of your goals?

How will you ensure equitable access for all users?
